

The lord god made them all...

... so please help local wildlife this August!

On August 8, 15, 22 and 29 First Universalist Church will be collecting "Wish List" items that will be put to use for the care and rehabilitation of wildlife, for educational programs, and for the conservancy efforts of Brukner Nature Center. A donation bin in the church will

accept your non-perishable items. **We are designating August 29 as the Sunday to bring perishable items.**

A cooler will be brought in to transport the donations to Brukner.

Visit your local bait shop, garden, grocery store or pet store for these items! Have fun with the grandkids by digging for worms or going fishing to help wildlife! (Remember, no worms or other critters from treated lawns or gardens, please — chemicals can kill wildlife.)

Wish List

NON-PERISHABLES:

- Mixed bird seed
- Cracked corn
- Suet blocks
- Bran flour
- Pedialyte
- Cotton balls
